

**Mark your calendars for an exciting event coming to Columbia, South Carolina on November 13-14, 2008:**

**[The 11th Annual Southeastern Trauma Symposium](#)**

This symposium is designed to attract the attention of medical professionals by presenting the most recent innovations in medicine, along with professional expertise in the field of trauma care.

Presentations at this stimulating conference will be an interface of lectures and small group tracks, to include pre-hospital interventions, acute care and rehabilitation services. Emergency Medical Services personnel are especially encouraged to attend.

A variety of remarkable exhibits will showcase trauma services, state-of-the-art equipment, and career opportunities that will be appealing and will satiate the appetites of everyone in attendance.

We invite you to come and join the Trauma Association of South Carolina to make the Southeastern Annual Trauma Symposium a successful and memorable event!
